

The Catalog

Office & archive

At C + P, you'll find the right cabinet for every application. Choose from a wide selection of cabinet types ranging from hinged-door, sliding-door and tambour cabinets to glass door cabinets and cabinets with drawers, for filing or for a multi-drawer cabinet.

With a variety of practical interior fittings, your C + P cabinet can be individually designed for new storage and organization needs at any time.

Add to this a competent range of lounge furniture, tables, chairs, storage space near the workstation, caddies and accessories for contemporary office furniture.

Hinged-door cabinets

Sturdy and long-lasting.

Acurado series

The favorably priced cabinets for classic filing

- + Sturdy steel construction with high-quality enamel coating
- + With sliders for floor protection as standard
- + Shelves, coated light gray
- + Ergo-Lock grip lock (3-bolt) with 2 keys and optional exchangeable cylinder
- + Doors on bolt hinges, door opening angle of approx. 110°
- + Complete product line (different dimension variants and interior fittings for every requirement)

Asisto series

The attractive steel cabinets and shelving for any office

- + Sturdy steel construction with high-quality enamel coating
- + Appealing design thanks to narrow edges
- + Sliders for floor protection, as standard with level adjustment, adjustable from inside
- + Metal cabinet handles, matt nickel-plated
- + Shelves, coated black gray
- + 3-bolt safety lock with exchangeable cylinder, 2 keys
- + Hinged doors with approx. 225° door opening angle
- + Doors with wood decor fronts as standard, also available in steel or as glass doors
- + Complete product line (different dimension variants and interior fittings for every requirement)

Certos series (flame-resistant)

The double-walled cabinets with protection against fires and attempted burglary

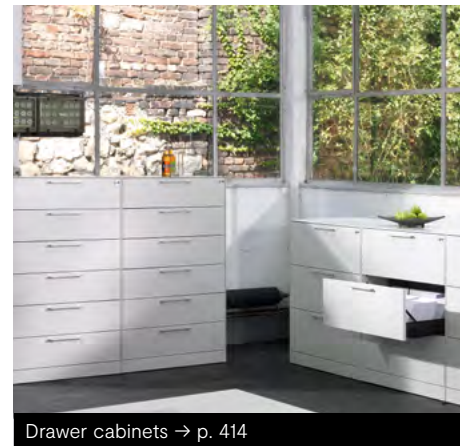

- + Double-walled, sturdy steel construction with special insulating plates between the walls and high-quality enamel coating
- + Protection against minor fires and attempted burglary
- + Increased protection against burglary thanks to burglar-proof door design on the side and sturdy door locks
- + With sliders for floor protection as standard
- + Shelves, coated light gray
- + Double-bit safety lock with five-bolt bolt lock system, with 2 keys
- + Doors on external sturdy bolt hinges, convenient door opening angle of approx. 180°
- + Optional electronic code lock
- + Complete product line (various heights and dimension variants for every requirement)

The patented Ergo-Lock from C+P

Outstanding operating safety, wear resistance and an attractive appearance characterize the patented “Ergo-Lock” grip lock from C+P. The **“simply push shut to close”** feature in particular already makes the work of hundreds of thousands of users easier—and soon yours, too!

Features of the Ergo-Lock:

- + **High-quality appearance—current and contemporary**
Fits in with any room and gives your cabinet a distinctive look.
- + **Patented “simply push shut to close” mechanism**
Neatly close a cabinet, even if your hands are full—only from C+P.
- + **Exchangeable cylinder, subsequent replacement, simultaneous locking—it’s all possible!**
Remain open to future change and safeguard the security of your investment.
- + **Suitable locking systems with PIN code or transponder with the same appearance.**
Use a PIN code or transponder instead of a key with the same design if required for security purposes. As a complete, electronic offline lock, the Ergo-Lock offers full state-of-the-art features.

Whether you use it as a key lock or with PIN codes or transponders, the Ergo-Lock product range offers the right system to suit every requirement.

Opt for security and access control to suit your particular needs:

Mechanical locking system

- + 2 keys per lock
- + Standard design for all Acurado hinged-door cabinets
- + Also easy and convenient to operate with gloves

PIN code lock

- + Motorized locking bolt
- + 4 digits
- + 4- to 8-digit codes possible
- + Optical function feedback (green/red)
- + Master key code
- + Usage range: +5 to +40°C
- + Operated with 2 standard AA batteries (alkaline)
- + Batteries last for approx. 30,000 openings or approx. 3 years

Order no.	8900-750
Price	225,-

RFID transponder lock

- + Motorized locking bolt
- + Transponder type: MIFARE® DESFire®
- + Can be integrated into existing access control systems
- + USB programming interface
- + Optical function feedback (green/red)
- + Easy operation with programmable user and master cards, as well as a service card
- + Management software also available as an option
- + Usage range: +5 to +40°C
- + Operated with 2 standard AA batteries (alkaline)
- + Batteries last for approx. 30,000 openings or approx. 3 years

Order no.	8900-740

Acurado

Hinged-door cabinets.

Features of the hinged-door cabinets:

- + Sturdy steel construction with high-quality enamel coating
- + Wide range of different dimensions for any application
- + With sliders for floor protection as standard
- + Shelves, coated light gray
- + Improved operating safety, wear resistance and an attractive ergonomic appearance thanks to the Ergo-Lock grip lock (3-bolt latch) in black with 2 keys
- + Doors on bolt hinges, door opening angle of approx. 110°
- + Door reinforcement for high stability
- + Highly flexible interior fitting options thanks to adjustability in 15 mm steps
- + Interesting range of counter and top solutions as well as shelving
- + High load capacity of 70 kg per shelf, reinforced shelf can bear loads up to 110 kg, for reinforcement see page 365

Order no. 9260-000

- + **Ergo-Lock grip lock**
Improved operating safety, wear resistance and an attractive appearance thanks to the grip lock (3-bolt latch) in black with 2 keys—the door can be closed simply by squeezing the grip lock

Asisto

The strength and flexibility of steel in the office.

Asisto from C + P is a leading product in all areas of modern office furniture and also offers added value that is “as strong as steel” and that you can only get from C + P. The Asisto cabinets with the innovative steel body stand out thanks to their technology, design and price-performance ratio. Asisto is the intelligent complete range from the market leader in steel furniture.

Features of Asisto hinged-door cabinets:

- + Sturdy steel construction with high-quality enamel coating
- + Appealing design thanks to narrow edges which you can only achieve with intelligently manufactured steel bodies
- + Excellent stability and suitability for moving thanks to Asisto steel body (with useful magnetic surfaces on the side)
- + Sliders for floor protection, as standard with level adjustment, adjustable from inside
- + Metal cabinet handles, matt nickel-plated
- + Shelves, coated black gray
- + 3-bolt safety lock with exchangeable cylinder, 2 keys
- + Hinged doors with approx. 225° door opening angle
- + Different fronts (steel, wood and clear glass) and tops can be matched to the steel body
- + Highly flexible interior fitting options thanks to adjustability in 15 mm steps
- + High load capacity of 70 kg per shelf
- + MCPB tops, 25 mm thick, for cabinets up to 1,635 mm in height

All units feature the narrow 6 mm edge that is characteristic for the Asisto cabinet system

The standard Asisto handles are matt nickel-plated and continue the elegant style of this product line

The adjustable hinges (opening angle of approx. 225°) are extra flat, thus allowing even better access to the cabinet interior

The Asisto level adjustment can be easily adjusted from the inside with easy access to the adjustment screw through a guide sleeve

Asisto

Sliding-door cabinets.

Features of the sliding-door cabinets:

- + Sturdy steel construction with high-quality enamel coating
- + Appealing design thanks to narrow edges which you can only achieve with intelligently manufactured steel bodies
- + Excellent stability and suitability for moving thanks to the Asisto steel body (with useful magnetic surfaces on the side)
- + Sliders for floor protection, as standard with level adjustment, adjustable from inside
- + Metal cabinet handles, matt nickel-plated
- + Shelves, coated black gray
- + Safety lock (push and turn cylinder lock) with exchangeable cylinder, 2 keys
- + Easy to move sliding doors with long-lasting special casters
- + Different fronts (steel, wood) and tops can be matched to the steel body
- + Highly flexible interior fitting options thanks to adjustability in 15 mm steps
- + High load capacity of 70 kg per shelf
- + MCPB tops, 25 mm thick, for cabinets up to 1,635 mm in height

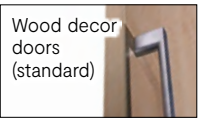

Order no. 142002-000
& 142002-710 (steel doors)

Asisto

Tambour cabinets

Features of Asisto tambour cabinets:

- + Body in sturdy steel construction with high-quality enamel coating
- + Appealing design thanks to narrow edges which you can only achieve with intelligently manufactured steel bodies
- + Excellent stability and suitability for moving thanks to the Asisto steel body (with useful magnetic surfaces on the side)
- + Sliders for floor protection, as standard with level adjustment, adjustable from inside
- + No assembly required—tambour cabinets are delivered fully assembled
- + Shelves, coated black gray
- + Hook bolt lock with exchangeable cylinders, 2 keys
- + Tambour doors consist of full-length, flexible plastic mats (polypropylene) with aluminum locking bar and metal cabinet handle, matt nickel-plated, for easy operation
- + Tambours move especially smoothly and quietly
- + Doors also available with sound-absorbing acoustic tambour
- + Highly flexible interior fitting options thanks to adjustability in 15 mm steps
- + Load capacity of 50 kg per shelf
- + MCPB tops, 25 mm thick, for cabinets up to 1,635 mm in height

Patented acoustic tambour:
Absorb sound, improve acoustics—and look good doing it: The light-running, patented and award-winning special tambour absorbs a majority of the sound occurring in day-to-day work. In some frequency ranges, it “swallows” almost seven times as much sound as a conventional cabinet.

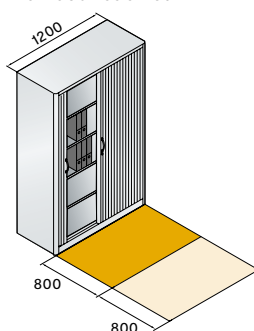

+ Optional for all cabinets:
Make the office an area of tranquility!
“Typical” background noise is part and parcel of the day-to-day routine in open-concept offices: Talking, clatter and ringing hamper concentration while working. All the better if you can solve this problem by utilizing the office storage you need anyway and create a healthy, pleasant working atmosphere for employees at the same time.

Tambour cabinets for efficient office space utilization

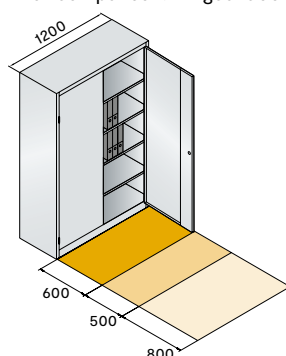

When open, tambour cabinets always provide unobstructed access without the hindrance of doors extending into the room. This allows you to

- + fit more workstations and storage space in the room
- + or achieve a more generous appearance of your furnishings while using the same amount of space,
- + utilizing valuable office space more efficiently!

Tambour cabinet

For comparison: Hinged-door cabinet

- = Functional area
- = User area
- = Traffic area

Sample visualization of the functional floor space required by space-saving cabinet types (The example does not take into account the possibility of overlapping traffic areas according to regulations)

Also available with **acoustically effective tambour doors**

HPL = High-pressure laminate

7100 and 7200 series Multi-drawer cabinets.

Multi-drawer cabinets from C+P know how to inspire. They can be used for just about any desired custom solution, not least thanks to their stepped horizontal and vertical dividers. Only available from C+P.

The cabinet with 10 drawers in one and the same body is another specialty from C+P, just like the trouble-free space-saving storage of up to 15 drawers (per cabinet with a height of 760 and 420 mm)—also on base and with MCPB top on request.

7100 and 7200 series

Multi-drawer cabinets.

Features of the multi-drawer cabinets of the 7000 series:

The universal drawer cabinets for everything flat,

e.g. drawings, plans, pictures, prints, graphics, collections, medication, small parts and lots more.

- + Sturdy steel construction with overlay drawer fronts and high-quality enamel coating
- + Many combination options thanks to optional base and top covers
- + With sliders for floor protection as standard
- + Elegant and ergonomic bow-shaped handles, matt nickel-plated
- + Central locking system with 2 keys (cylinder lock with exchangeable cylinder)
- + Drawer with self-closing system, fully (DIN A1) or 4/5 (DIN A0) extendable, with anti-tilt mechanism
- + All drawers with pressure device at the front and with cover strip at the back
- + Load capacity per drawer: 40 kg
- + Drawer bottoms are stepped and can be divided, therefore suitable for different applications
- + Available in two sizes (DIN A1 and DIN A0) and two cabinet heights with different drawer configurations
- + Per drawer: 1 transparent label holder with white label as standard

Explanation of the interior dimensions:

Standard version

- 45 mm = Height of the drawer **pan**
- 43 mm = Internal height of the drawer **pan**
- 66/134 mm = Exterior panel height (regular/double panel height)
- 55/120 mm = Internal height of the drawer (regular/double panel height)

Version with high drawer pan and double panel height

(addtl. charge for model 7000-80, see bottom of Page 436)

- 100 mm = Height of the drawer **pan**
- 98 mm = Internal height of the drawer **pan**
- 134 mm = Exterior panel height
- 120 mm = Internal height of the drawer

Office furniture & accessories

Counters and lounge furniture

The right furniture for THE NEW WORLD OF WORKING

The way we work is changing. Coziness and an atmosphere of well-being in the office are playing an increasingly important role. More and more, the office of today is becoming a living room where lounge and meeting furniture are supplementing the classic desk and workstation.

What you'll find in this section:

- + Customized solutions for reception counters
- + Basic standing tables as a "moving" meeting point
- + Asisto lounge furniture as a place to retreat to for concentrated work and informal meetings

Tables

The contemporary work and meeting solutions

Whether it's ergonomic sit/stand workstations or smart solutions for meetings: Contemporary office tables of today have to offer more than function and efficiency. Like tables from C+P, which come in an attractive selection of colors and decors, among other things.

What you'll find in this section:

- + Electric height adjustment Asisto sit/stand tables
- + Asisto occasional tables with fixed or adjustable height
- + Asisto folding tables as a mobile, nestable version
- + Basic cafeteria tables and folding tables

Around the desk

Welcome additions for working better

The difference is in the details! The right parameters in the work environment have a major influence on well-being and motivation—and therefore on the results of work. Whether it's the addition of thinking lighting, the acquisition of privacy sections or optimization of the monitor position: These investments always pay off.

What you'll find in this section:

- + Workstation dividers
- + Asisto light with active brightness control
- + Asisto monitor holders

Chairs and stools

The ergonomic swivel and task chairs

Healthy and pleasant sitting isn't just a decisive factor at the workplace. Chairs which not only look good, but also enable comfortable sitting, are also needed at meetings & seminars, for visits and for meetings at the office counter.

What you'll find in this section:

- + Basic workstation swivel chair
- + Asisto office swivel chair with 3D knitted membrane
- + Basic and Asisto visitor chairs
- + Basic and Asisto stackable chairs
- + Bar stools

Cabinets, pedestals and caddies

The experts for storage space and flexible catering near the workstation

Everything at hand and in the right place in the right pull-out cabinet or pedestal: Naturally, made of steel with long-lasting and convenient pull-outs, nearly unlimited color variety and an impressive appearance and technology. This also applies for C+P fridge caddies, which provide perfect service in the conference area.

What you'll find in this section:

- + Asisto pull-out cabinets at standing and sitting height
- + Asisto mobile pedestals
- + Asisto fridge caddies

Reception counter

Design meets function and expression.

The reception counter is the first piece of furniture at your company that people see. That's why it's all the more important that you design this area in line with your tastes and your company's image. C+P has an extensive portfolio:

- + Reception solutions for every need
- + Stylish business cards for the entrance area of any company
- + Also for clinics, institutes, public facilities and lots more
- + Available in a wide variety of different surfaces, colors and versions
- + Made of sturdy and high-quality materials

Whether it's light or dark, modern or timeless: The choice is yours, and you'll be delighted at how your new counter influences the effect of the space and creates a positive impression.

Ask us about your customized reception counter—we look forward to handling your task!

Basic

Standing tables.

The Basic standing table keeps the body in motion and the thoughts flowing.

Basic—keeps the body in motion and the thoughts flowing. Meetings held standing are generally shorter and thereby promote work efficiency.

For short meetings, an exchange of ideas, brainstorming, collecting information or a coffee break, the Basic standing table makes communication zones possible in large offices.

- + Sides and tabletop are always made of sturdy 38 mm-thick panels
- + All surfaces are coated with high-quality, durable HPL
- + Sides each feature 2 floor-compensating adjustable feet for easy leveling

Asisto Lounge.

Features of the Asisto lounge sofas:

- + Ideal supplement for the reception, lounge or central zone
- + Currently available as a sofa and highback in 3 widths
- + 5 materials from the FENICE collection can be combined

The way we work is changing. On the one hand, day-to-day work is getting faster all the time and requirements on each individual are increasing. On the other hand, coziness and an atmosphere of well-being play an important role at the office. Relaxation and the ability to retreat are utilized to develop new energies and creativity.

More and more, the office of today is becoming a living room where lounge and meeting furniture are supplementing the classic desk and workstation.

The Asisto lounge offers a visual and acoustic space to retreat to for concentrated work.

Price	1.900,-	1.900,-	1.900,-

The smart lamp system of the Asisto series complements the ergonomic workstation.

Newly developed active Luminosity Range Control ensures that the illumination angle and the illumination values are automatically adapted to the working height of sit/stand tables. Customized light scenes set by the user are retained at each table height.

LEDs of the lamp head are dimmed depending on the table height. This means that your eyes don't have to adjust to changing lighting conditions, but rather that the lighting conditions adjust to your eyes.

The light shines both up (indirect) and down. Dimmable adjustment is made using the display

A spotlight function for continuous constant light is integrated and can be selected using the operating panel

Smart cable duct

All connecting cables are routed neatly and protected under the unobtrusive cover. The powerful gas lift element for top-notch ease of operation is also found here.

Quick release

Monitors can easily be inserted or changed by one person by hand without any tools at all. The holder fits all common monitors with the 75 x 75 and 100 x 100 attachment standard.

Sturdy joint technology

The high-quality pivot joint is considerably flatter than a conventional ball joint, so it offers nearly unlimited freedom of movement in every turn and tilt direction. Large monitors can also be effortlessly handled and remain securely in the set position.

3-in-1 table attachment

The standard attachment element can be conveniently secured from above and covers three mounting types in one: clamp, cable opening and drill hole attachment. It offers optimal flexibility should the attachment type be changed.

Basic

Workstation swivel chair.

Features of the Basic office workstation chair:

- + Office swivel chair with load-dependent braked casters
- + Attractively shaped plastic base in black
- + Integrated synchronous mechanism for seat and backrest, 4 locking positions
- + Body weight adjustment in the mechanism between 45 and 120 kg

Xtreme is a modern fabric made of up to 100% recycled polyester. This prevents waste and conserves raw materials. Thanks to its stretch characteristics, flame-resistance, long service life and anti-pilling properties, Xtreme is ideal for use on chairs.

Composition

100% recycled flame-resistant polyester

Dyes do not contain heavy metals

Environmentally friendly

Made of 100% recycled polyester

In accordance with EU Ecolabel certificate

**Synchronous mechanism**

Seat and back tilt in sync. Sync ratio of backrest to seat is 2.4:1. Force of 45 to 129 kg using side level in just 2 turns. The mechanism has 4 locking positions.

**3D armrest**

Polyamide armrests with fiberglass and SoftTouch PU coating. Vertically adjustable, with depth-adjustable and swiveling support

**Lumbar**

Vertically adjustable lumbar support with flexible slats

**Soft casters**

(for hard floors)

**Hard casters**

(for soft floors)

The 3D knit membrane

This is precisely fit to the backrest and seat. It's various back zones are designed in such a way that the flexible functions of the backrest are optimally supported. In the lumbar area, it features greater tension than in the shoulder area, forming a perfect symbiosis together with the back design for comfortable sitting. The 3D knit membrane also contributes to sustainability.

Stackable chairs

When chairs need to be set up and put away again quickly and with space in mind, stackable chairs are the right choice:

The all-plastic **Basic** model is the right alternative for anyone with high aesthetic demands and a limited budget.

Should you prefer an appealing steel frame and optional seat upholstery, **Asisto** is the right address.

Xtreme is a modern fabric made of up to 100% recycled polyester. This prevents waste and conserves raw materials. Thanks to its stretch characteristics, flame-resistance, long service life and anti-pilling properties, Xtreme is ideal for use on chairs.

Composition

100% recycled flame-resistant polyester

Dyes do not contain heavy metals

Environmentally friendly

Made of 100% recycled polyester

In accordance with EU Ecolabel certificate
