

Cambio lockers

More versatile than other lockers.

More versatile than other lockers

Cambio lockers.

Cambio from C+P is more than just a locker!
These hard facts make this range so very
incomparable:

- + **Innovative ventilation**
and drying thanks to the SVL, FVL and FVLD concepts
(see p. 6)
- + **Optimum use of space and interior design**
thanks to corner, niche and end solutions
- + **Underbench solutions designed to meet your needs**
for adaptation to any room situation
- + **Choose from many materials and colors**
for every taste and every need
- + **Body, base and steel doors electrolytically
zinc-plated as standard**

Cambio from C+P features lots of space for customer-specific solutions, of which a few examples are shown on the following pages. The range of options is endless: single- and double-walled steel doors, HPL decor doors, corner lockers, electronic locking systems and so much more...

Let us know what you're looking for and send us your project-specific request! In the world of changing room and assembled box lockers, Cambio is the professional answer to just about every furnishing requirement.

Optimal Cambio lockers.

→ The Cambio ventilation concepts

Detailed explanation → p. 6

Sophisticated and pleasant for meeting the highest standards.

130 mm-high feet, vertically adjustable from inside and outside with sleeves.

Single- or double-walled doors with insulation:

Single-walled steel doors with closed side profiles for maximum stability. Double-walled sandwich construction doors with convenient body sound absorption for minimal unpleasant noise.

90° door opening limiter as standard design. New design with high-load, plastic-sheathed stainless steel special cable.

Lockers, double-tier

12
Assembled box lockers

16
Z lockers
and corner solutions

Stainless steel hinge:
For HPL decor doors.

Can be integrated into Cambio: All common mechanical and electronic locking systems, from turning bolt latches to coin-operated locks to electronic locking systems as part of complete building automation (see p. 214).

Cylinder lock:
With 2 keys as standard equipment.

C + P POWER LOCKERS

Smart ventilation and drying with C + P power lockers.

Self-ventilation using the SVL concept was examined and confirmed with Cambio and Prefino from C + P.

Thanks to the flow behavior resulting from the design, damp clothing dries out considerably faster—guaranteed, and without any additional energy input! For special drying tasks, forced ventilation concepts with and without dryers are also available. We look forward to your handling your task.

SVL

Self-ventilation

Our SVL technology means effective drying, without any additional ventilation equipment at all!

- + Can be used for 90% of all drying tasks
- + No customer-side requirements
- + Perforations positioned with ventilation in mind ensure optimal flow and efficient drying in the locker
- + Standard with Cambio and Prefino lockers

FVL

Forced ventilation

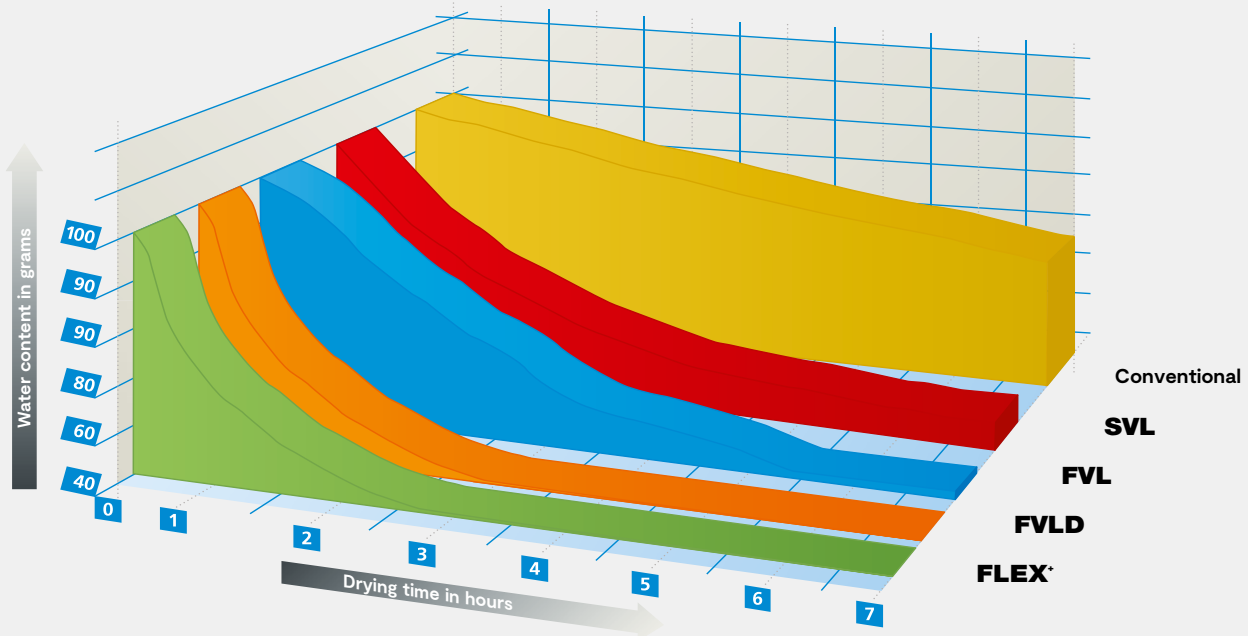

Our FVL technology means a high air renewal rate thanks to connection to the customer's ventilation system.

- + Improved drying and odor elimination
- + Used in industrial plants and in foodstuff processing, for example
- + Extraction occurs by way of the customer's ventilation system (ideally with heat exchangers to reduce energy loss)
- + For optimal ventilation, we recommend an air renewal rate of 8 to 10 times per hour

PERFORMANCE COMPARISON

All specifications and values assume a room temperature of approx. 20°C at a relative humidity of approx. 50% (common climate in Central Europe).

FVLD

Forced ventilation with dryer

Our FVLD technology means maximum drying efficiency with minimal energy consumption.

- + Closed drying system for up to 15 compartments with integrated condensation dryer
- + Used at building yards, at road maintenance depots and in the construction industry, for example
- + Only a drain for condensation water and a power connection are required
- + Very energy efficient: The power consumption of the dryer is only 550 watts!
- + Up to 30 liters of water can be dried per day!
- + In addition to moisture, odors are also eliminated to a large degree
- + A separate, energy-hungry drying room is unnecessary.

Cambio

Lockers.

Features of the Cambio series:

- + Sturdy steel construction with overlay doors and high-quality enamel coating
- + **Interior slopes in the body for high stability and easy, convenient clothing removal**
- + **Novel ventilation using the SVL concept as standard**
- + Steel fronts (single-walled, optionally double-walled and insulated) or optional HPL with wood decor for an even more attractive appearance
- + Door hinges for sheet metal doors made of aluminum/plastic
- + Door hinges for phenolic HPL decor fronts made of stainless steel
- + 90° door opening limiter for outstanding closing characteristics as standard
- + **Body, base and steel doors electrolytically zinc-plated as standard**
- + Cylinder lock with 2 keys
- + **Optimum air circulation thanks to defined ventilation spaces in front of and behind the bottom storage shelf**
- + Sturdy changing room rail with an oval profile, 4 anti-rotation hooks with system holder, e.g. for coat hangers or movable partitions
- + Wide variety of interior fitting solutions for any requirement
- + **Slot-in shoe shelf, easy to retrofit by the user**
- + Height adjustment using adjustable 130 mm-high plastic feet, easy to operate from inside and outside
- + Vertically adjustable base
- + Wear-resistant plastic feet ensure protection from corrosion
- + Sub-frame available with feet or base, as well as with spacious storage box or bench on request

A Locker rows and individual lockers → p. 8

B Corner lockers → p. 18

→ SVL concept® and drying guarantee as standard → p. 170

Door version:

- + Single-walled, reinforced steel doors as standard
- + Optional: Double-walled, insulated steel doors
- + Optional: HPL decor doors (standard with Z lockers)
- + Steel doors are 19 mm thick, HPL doors are 13 mm thick

Cambio

Changing room corner lockers.

Cambio creates spaces

It makes a big difference whether furniture is simply placed in a room or whether the furnishings become part of the overall interior architecture. Cambio meets all the requirements for harmoniously integrating into any desired environment.

Thanks to intelligent corner lockers which are flexible in use as an inside or outside corner, incomparable spatial experiences are created.

More than just a large number of available locker configurations are decisive for integration potential—the diversity of material options and the surface design also play a key role.

Please send us your project-specific request.
